COUNTY

KERN

FACILITY NAME

Buttonwillow Sanitary Landfill

OPERATOR

County of Kern - Public Works Department

FACILITY LOCATION

NE 1/4, NE 1/4, NE 1/4 Section 14, T.29S; R23E; MDB&M

.4 mile East of Buttonwillow Road on Sullivan Road

FINDINGS

- This facility is an existing (since 9-72) 10 acre Class II sanitary landfill utilizing the modified trench method of operation. Remaining site life is estimated to be 12 years. This facility receives 20 tons per day of Group 2 & 3 wastes and is operated 24 hours per day, 7 days a week. No salvage operations are conducted. Types of wastes received at the site include:
 - Residential
 - Commercial
 - Industrial
 - Group 2 & 3
- Design and operation of this facility are as specified by the Report of Disposal Site Information dated November 3, 1977. There will be no significant changes in design or operation in the next five years.
- The following documents condition operation of this facility:
 - California Regional Water Quality Control Board, Central Valley Region: Waste Discharge Requirements No. 70-229.
- This facility's design and operation are currently in substantial compliance with State Minimum Standards for Solid Waste Handling and Disposal as determined by physical inspection made on December 19, 1978, except that they violate Sections 17636, 17637, 17638, 17639, 17646, 17647, 17648, 17660, 17666, 17667, 17668, 17670, 17676, 17677, 17678, 17682, 17684, 17711, 17726 and 17727.
- This permit is consistent with the Kern County Solid Waste Management Plan and with the State Minimum Standards for Solid Waste Handling and Disposal.

This permit is granted solely to the operator named above, and is not transferable. Upon a change of operator, this permit is subject to revocation. Upon a significant change in design or operation from that described in this permit or in attachments thereto for the existing design and operation of a facility operating immediately prior to August 15, 1977, or from the approved intended design and operation of a facility which was not operating prior to August 15, 1977, or which herein is granted a permit modification, this permit is subject to revocation, suspension, modification or other appropriate action.

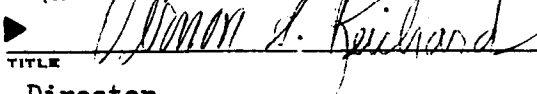

This permit does not authorize the operation of any facility contrary to the State Minimum Standards for Solid Waste Handling and Disposal. This permit cannot be considered as permission to violate existing laws, ordinances, regulations, or statutes of other government agencies.

FACILITY NAME: Buttonwillow Sanitary Landfill

CONDITIONS:

Requirements:

1. This facility must comply with the State Minimum Standards for Solid Waste Handling and Disposal.
2. This facility must comply with all federal, state, and local requirements and enactments.
3. Additional information concerning the design and operation of this facility must be furnished upon request of the enforcement agency.

Prohibitions:

The following actions are prohibited at the facility:

1. Disposal of hazardous waste.
2. Disposal of liquid waste.
3. Open burning.
4. Scavenging
5. The salvage of drugs, cosmetics, foods, beverages, hazardous chemicals, poisons, medical wastes, syringes, needles, pesticides and other similar materials capable of impairing public health.

Specifications:

1. No significant change in design or operation from that described in Item A of the Findings is allowed, except for those changes which are required under the Conditions portion of this permit.
2. The operator shall provide an adequate number of qualified and trained personnel to staff the site and adequate supervision for these personnel.
3. Unloading of solid waste shall be confined to as small an area as practicable. Waste shall be deposited at the toe of the fill and compacted against a sloped working face.
4. Operator shall monitor and promptly repair or correct deteriorated or defective conditions with respect to requirements of the Minimum Standards.

Provisions:

1. The following violations must be corrected by the dates indicated:
 - (a) Operator shall see that internal roads are maintained so that

FACILITY NAME: Buttonwillow Sanitary Landfill

vehicle access and unloading can be carried on during inclement weather, and identified with suitable signing showing directions to operating area by March 31, 1979.

- (b) Adequate communication facilities shall be provided for users and site personnel by March 31, 1979.
- (c) Operating and maintenance personnel shall be required to wear and use approved safety equipment by March 31, 1979.
- (d) Cover material compacted to a minimum thickness of six (6) inches shall be placed over all surfaces of compacted group I and II wastes at least every 48 hours by March 31, 1979.
- (e) The operator shall develop an effective litter control program and submit a written copy of the details of the program to the Enforcement Agency by March 31, 1979.
- (f) Operator shall provide adequate types and numbers of equipment to meet minimum standards by March 31, 1979. Standby equipment shall also be available.

- 2. This permit is subject to review by the enforcement agency, and may be suspended, revoked, or modified at any time for sufficient cause.

Self Monitoring Program:

The following items shall be monitored by the operator of this facility or his agent. Records including but not limited to these items shall be kept and made available to the enforcement agency upon request:

- 1. Weights and volumes received accurate to within 10%.
- 2. The length and depth of any cut made in natural terrains.
- 3. Log Book of special occurrences such as fires, earthslides, injuries, explosions, flooding, etc.
